

PACIFICSOURCE AMENDMENTS/DIRECT CONTRACTING

PacificSource Health Plans mailed amendments to providers with agreements in early October. The amendment adds Commercial Voyager/PPO products to the direct agreement effective January 1, 2022. By accepting the amendment, providers will continue to be reimbursed as they are now and ensure in-network status with PacificSource Health Plans prior to the termination of the IPN network.

For providers who do not receive an amendment by the end of October, or for providers who do not have a direct agreement and would like to begin the contracting process, contact the Idaho Contracting Team: idcontracting@pacificsource.com.
